For centuries, philosophers and scientists have debated the nature of humanity. Are we inherently good or evil? Are we born selfish or compassionate? In his groundbreaking book, 'Born To Be Good,' Dr. Dacher Keltner argues that humans are fundamentally good.

Keltner draws on the latest scientific research in psychology, neuroscience, and anthropology to show that we are born with a natural capacity for empathy, compassion, and cooperation. He shows how these qualities are essential for our survival and well-being, and how they have shaped the course of human history.

'Born To Be Good' is a challenging and inspiring book that will change the way you think about human nature. It is a must-read for anyone who wants to understand the true potential of humanity.

## About the Author
