In the United States, the color of your skin can have a profound impact on your life expectancy, your health, your education, and your economic opportunities. *Living and Dying While Black in America* is a powerful and eye-opening book that exposes the stark disparities faced by Black Americans throughout their lives, from cradle to grave.

Drawing on extensive research and personal narratives, the author paints a vivid picture of the challenges faced by Black Americans at every stage of life. From the disproportionate rates of infant mortality and maternal deaths to the higher rates of chronic diseases and premature death, the book reveals the systemic racism that is embedded in our healthcare system.

The book also explores the ways in which racism affects Black Americans' education and economic opportunities. Black children are more likely to attend underfunded schools and live in poverty, which can have a lasting impact on their ability to succeed in life.

*Living and Dying While Black in America* is a must-read for anyone who wants to understand the complexities of race and inequality in America. It is a powerful and moving book that will open your eyes to the challenges faced by Black Americans and inspire you to work for a more just and equitable society.

## **Reviews**

"*Living and Dying While Black in America* is a powerful and necessary book. It is a must-read for anyone who wants to understand the realities of racism in America." - Ibram X. Kendi, author of *How to Be an Antiracist*

"A searing indictment of the systemic racism that plagues our nation. *Living and Dying While Black in America* is an essential read for anyone who cares about justice and equality." - Michelle Alexander, author of *The New Jim Crow*

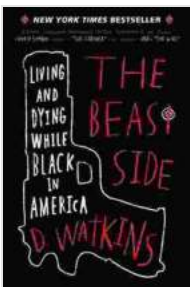

## **About the Author**

*Living and Dying While Black in America* is written by Dr. Arline Geronimus, a renowned sociologist and public health researcher. Dr. Geronimus has spent her career studying the impact of racism on the health and well-being of Black Americans. She is a leading expert on the topic of racial inequality and has published extensively in peer-reviewed journals.

Dr. Geronimus's work has had a profound impact on public policy. She has testified before Congress on the issue of racial disparities in healthcare and her research has been cited in major reports by the Centers for Disease Control and Prevention and the National Institutes of Health.
