Welcome to the groundbreaking guide to telephone triage in Obstetrics and Gynecology. This comprehensive resource empowers healthcare providers with the knowledge and tools to deliver exceptional care over the phone, enhancing patient outcomes and streamlining healthcare delivery.

**Evidence-Based Protocols, Expert Insights, Real-Life Case Studies** 

Drawing on the latest evidence-based research and decades of clinical experience, this book provides clear and concise protocols for managing a wide range of common obstetric and gynecologic concerns over the phone. Each protocol is meticulously crafted by renowned experts in the field, ensuring that healthcare providers can confidently triage patients and provide appropriate advice and instructions.

In addition to the protocols, the book is enriched with expert insights and real-life case studies. These invaluable perspectives offer a practical understanding of how to apply the protocols effectively and make informed decisions in challenging situations. By sharing their experiences and lessons learned, the authors provide a valuable resource for healthcare providers at all levels.

#### **Benefits of Telephone Triage**

- Improved patient access: Telephone triage allows patients to receive care from the comfort of their own homes, reducing travel time and inconvenience.
- Enhanced patient outcomes: By promptly triaging patients and providing appropriate advice, telephone triage helps improve patient outcomes and reduce unnecessary visits to the emergency department or clinic.
- Streamlined healthcare delivery: Telephone triage optimizes
  healthcare delivery by reducing the number of unnecessary
  appointments and freeing up providers to focus on more complex
  cases.
- Reduced healthcare costs: By reducing unnecessary visits and providing cost-effective care, telephone triage helps lower healthcare

costs for patients and providers alike.

#### **Target Audience**

This book is an indispensable resource for healthcare providers of all levels who provide telephone triage services in Obstetrics and Gynecology, including:

- Physicians
- Nurse practitioners
- Midwives
